Café Chiller

Iced Coffee Drink

Delicious is just one of the words used by customers when describing Café Chiller Iced Coffee Drink by Cold Star. Refreshing and energizing, these smooth and tasty beverages were created to appeal to customers in the C-store and food service segments. These popular new beverages are distributed in 10-liter cases containing two 5-liter throwaway bags with valves for use in our Cold Star refrigerated dispensing machines. They will enable C-stores and bulk product locations to provide their customers with one of the most popular types of cold drink in the marketplace. Created with no sacrifice of rich coffee flavor, our own formulations provide both the best-tasting and most profitable options for food service locations today. Extensive research preceded the development of our new iced coffee drinks, and meeting customers' preferences was our goal in creating these exciting beverages. Studies published by the National Coffee Association of the USA determined consumers want their coffee drinks to have a simple, high-quality, full coffee flavor - perhaps with a touch of light dairy and some sweetness. Our Café Chiller line has it all!

Enjoy ease of dispensing through our refrigerated system, which provides product at a cool and refreshing 34 to 38 degree temperature. Don't forget our patented throwaway bags and valves. There is no messy mixing, no downtime for the machine cleaning, and no capital outlay of maintenance cost with our program.

Take a moment to visit our web site (www.coldstarinc.com) and savor the detailed descriptions of our signature chillers. Give us a call today and add these exciting Café Chiller Iced Coffee Beverages in your stores. Invite your customers to experience for themselves how good an iced coffee drink can taste.
